

Spotlight on Geology

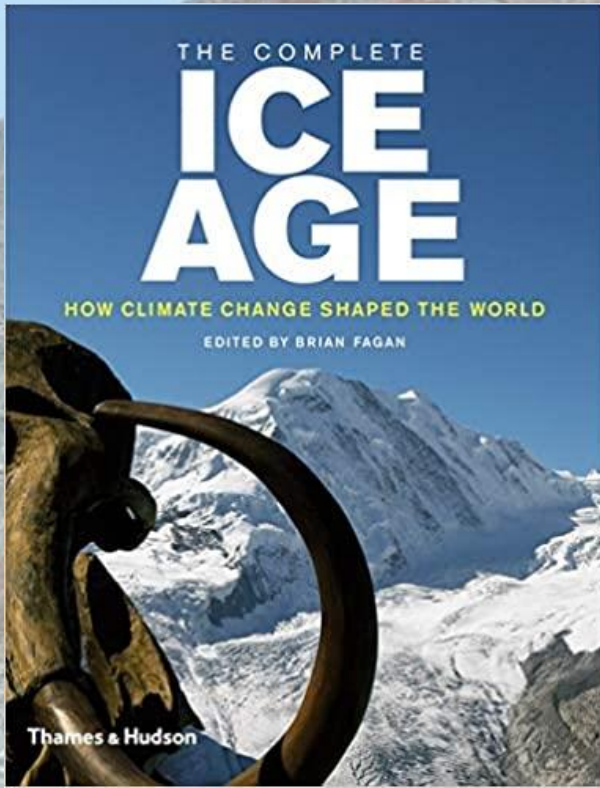

Resources from the library to support your studies in this subject. Titles can be borrowed using your student ID card.

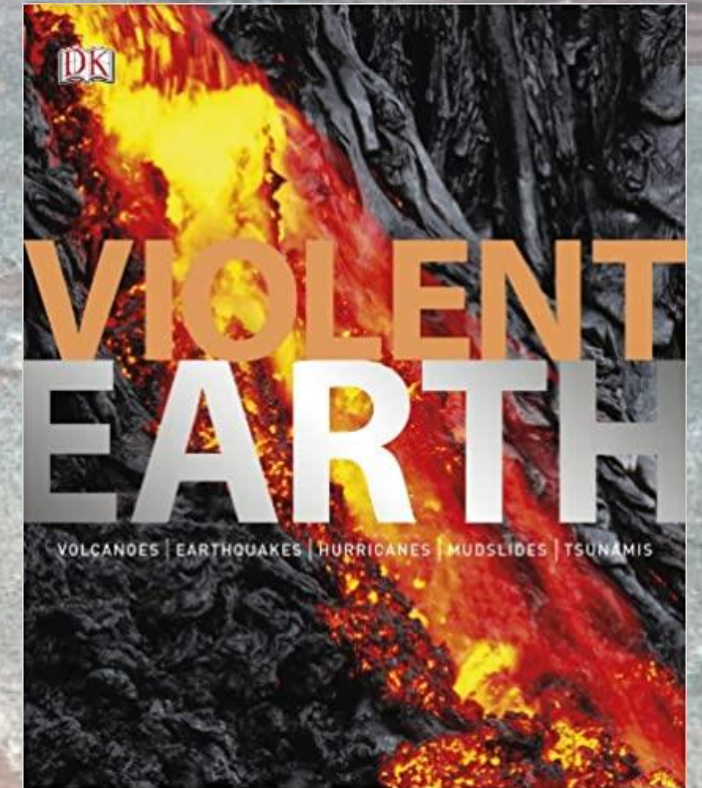

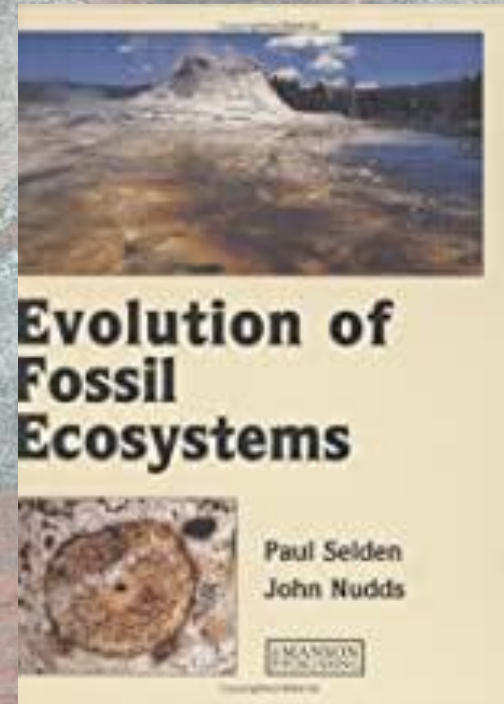

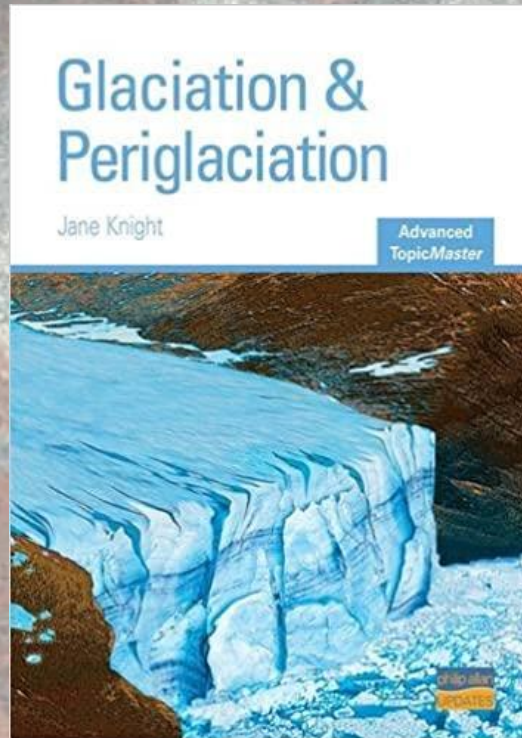

We provide Library copies of all available text books for you to use in College, as well as students being issued with a book at the start of the course

Essential Skills in Geology

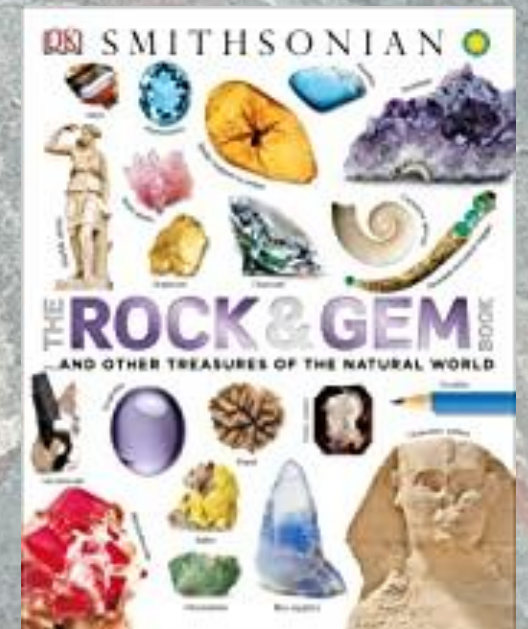

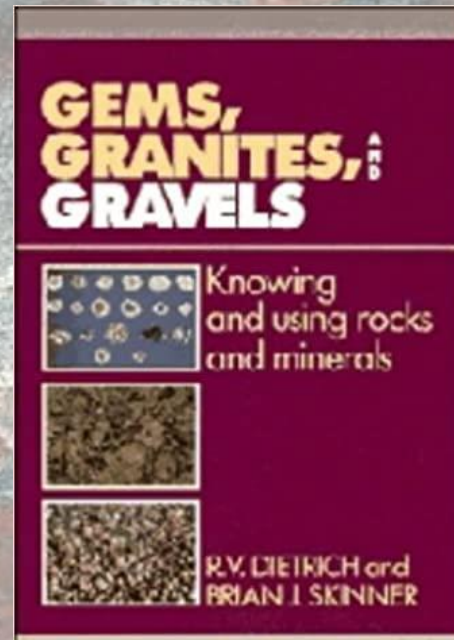

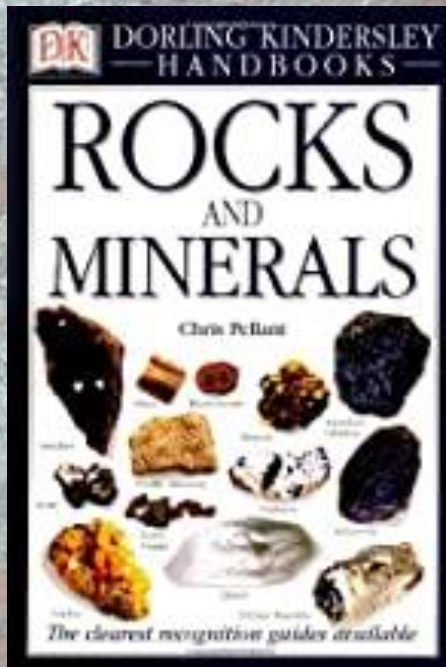

Books to help your read around the subject

Books on Rocks, Minerals and Fossils

Useful Geological Websites

The British Geological Survey: www.bgs.ac.uk/

Hosts a range of excellent learning and educational resources about the geology of the UK and geology in general.

The site also has a link to the digital geological map of the UK

The Geological Society: www.geolsoc.org.uk/

This is a great collection of geology resources for students, teachers and anyone interested in the Earth.

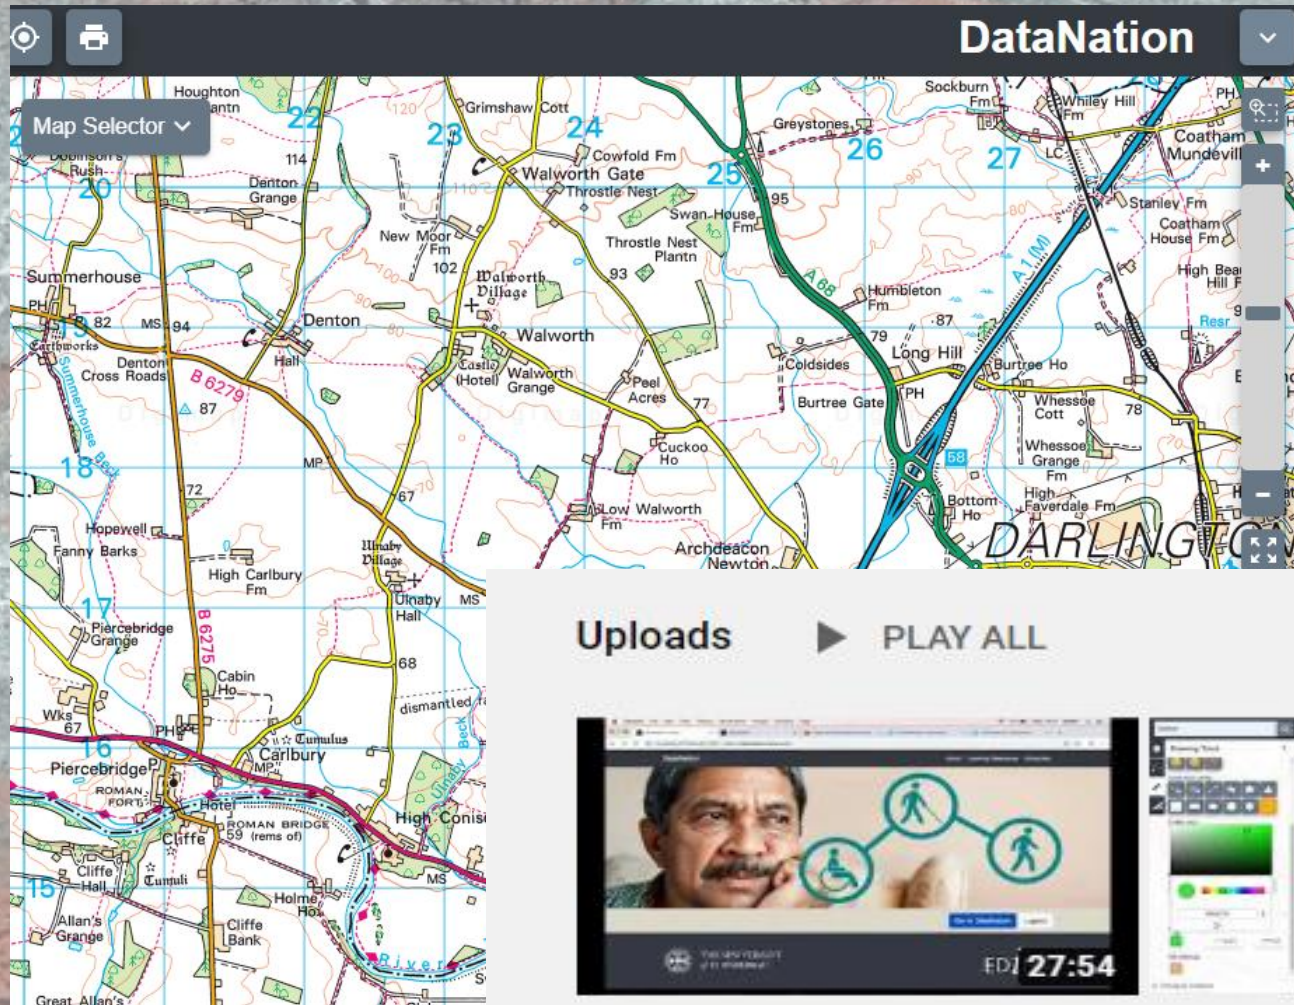

United States Geological Survey: www.usgs.gov/

A very online resource to explore more global geological topics, such as volcanoes, earthquakes and plate tectonics. For instance the site hosts a live map with information on all the world's latest earthquakes.

Geology.com www.geology.com/

This is one of the world's leading portals to geology and earth science news and information for rocks, minerals, fossils, geothermal energy, volcanoes, earthquakes, plate tectonics, mountains and astrogeology.

And don't forgetyou have access to Data nation via the library>links to online resources

Data Nation is very versatile and has tools to let you manipulate maps and data. This can include your own data.

Plenty of help is available on their YouTube Channel
